

# Medix Biochemica acquires ViroStat

## Providing Comprehensive Infectious Disease Solutions

**Medix Biochemica** is excited to announce the acquisition of *ViroStat Inc.*, a trailblazer in the supply of infectious disease raw materials. This partnership significantly expands Medix Biochemica's leading portfolio of IVD raw materials, positions Medix Biochemica as a market leader in the supply of critical antibodies and antigens to combat infectious diseases and accelerates the organization's strategic vision of becoming the first-choice partner for the global diagnostic industry.

### Together We Provide:

- Expertise developing and supplying antibodies and antigens for infectious diseases since 1985
- Large-scale manufacturing capacity
- Deep understanding of customer needs in IVD immunoassay test development
- Trusted solutions, including validated antibody pair suggestions and complementary biospecimens for assay development

### What's in Store:

- **No immediate changes for customers.** Any future updates will be provided in advance to ensure a smooth transition
- **Global reach and customer support wherever you are**
- **Continued excellence:** ViroStat's Westbrook, Maine operations will continue in their dedication to high quality and consistency, with Dr. Douglas McAllister, President, and Duncan McAllister, General Manager, joining Medix Biochemica

## Selected Antibody Pairs

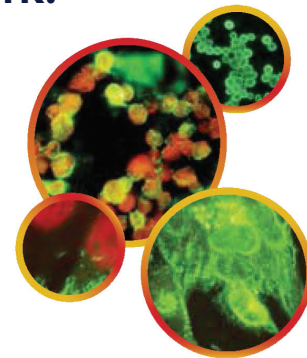

Antibody	Recommended Pairs*	
Influenza A	1331-1371	
Influenza B	1171-1131	1161-1131
RSV	0631-0635	0631-0651
Strep A	1151-0435	1501-0435
Strep B	1525-1525	1521-1525
Adenovirus	1431-1461	1431-1411
Metapneumovirus	4811-4821	
Rotavirus	0531-0581	0531-0541
<i>C. difficile</i> toxin A	5150-5154	
<i>C. difficile</i> toxin B	5156-5158	

\*ViroStat product codes

Product Code	Description
991-13-S	Nasal fluid
991-17-S	Sputum
991-24-S-AIA	Serum, influenza A
991-24-S-AIB	Serum, influenza B
991-24-S-ARSV	Serum, RSV
991-31-NCV-FLU-P	Nasal swab, flu positive
991-58-S-AIA	Plasma, influenza A
991-58-S-AIB	Plasma, influenza B
991-58-S-HMPV	Plasma, metapneumovirus
991-58-S-ARSV	Plasma, RSV

Negative biospecimens available

**“Our partnership with ViroStat enhances our offerings for infectious diseases and bolsters our scientific capabilities in IVD antibodies and antigens. We have a long-standing relationship with ViroStat and respect their work. We’re excited about the synergy between our teams and our shared goal of enabling customers in their fight against global infectious diseases.”**
